

Donor Advised Funds

Should You Consider Moving Your DAF to the Jewish Federation of Detroit?

Your DAF is a powerful tool for impact, and where it's housed can make a substantial difference. By moving your DAF to the Jewish Federation, you align your assets with an organization that shares your Jewish values and goals. Funds held by the Jewish Federation help strengthen your community, whether they are distributed to Jewish organizations or other non-profits.

Advantages to Moving your DAF to the Jewish Federation

Support for the Jewish community: 100% of the fees on Federation DAF accounts are used to support the work of the Jewish Federation and directly benefit our local and global Jewish community.

Alignment with your values: Our professional advisors can help you accomplish your philanthropic goals in coordination with your other contributions within the Jewish community and beyond. They can keep you informed about meaningful opportunities to make a difference.

Build your family philanthropy: We provide personalized grant-making support and work with you to involve your family members in philanthropic decisions. This can be a vital aspect of creating a lasting legacy of giving within your family.

Strengthen relations and goodwill with organizations outside the Jewish community: Your donations will be noted as having come from the Jewish Federation, in your name, helping strengthen our reputation and relationship with the greater community.

Lower costs: Administrative fees on funds held with the Jewish Federation are extremely competitive and often lower than those offered by commercial DAF providers.

How to Get Started

To learn more about opening a DAF with the Jewish Federation, please contact your Federation representative or any member of our Philanthropic Advancement team, or call us at 248-642-4260.
